Dear Mr. Matthan,

With reference to your D.O.No.G.4730-32/VV of the 11th instant, I would like to say that the estimates were sent to the Private Secretary to His Highness the Maharaja of Mysore with our letter No.1566 of the 29th August 1923. I am going to Mysore on the 15th instant to discuss them with him before he sends them to Government.

P.P.

Yours sincerely,

To

K. Matthan, Esq., B.A.
Chief Secretary to the
Govt. of His Highness
the Maharaja of Mysore
BANGALORE.

I am not sure if credits for the value of materials returnable have been fully taken into account. For instance, under Item No. 3 (a), I find that the total of 1, 2, 13, 14 and 15 alone comes to about Rs.18,500 against the credit of about Rs.12,000 shown in the estimate. It seems to me to be necessary to examine the estimate with a view to find out if other articles included in it are not returnable to Stock. In the case of articles which are not returnable to Stock and which have to be disposed of, it is necessary to estimate their value and take credit for it in the estimate. The amount to be sanctioned should be for the net cost after allowing for these factors.

Date of issue 3/10/23

Signed by Mr. K. V. Anantharaman

To

The Chief Electrical Engineer

Sir,

With ref: to your letter No. 2016 dated the 18th ~~instant~~ ultimo I am directed to state that it is not clear if credit for the value of materials returnable have been fully taken into account for instance, under item No I (a), ~~and~~ it is seen

ditto

that the total of Rs 1, 2, 13, 14,
and 15 alone comes to
about Rs 18,500/- against
the credit of about Rs 12000/-
shown in the estimate.
It is therefore necessary
to examine the estimate
once again with a view
to see if other articles
in the charge are returnable
to stock. In the case of
articles which are not-
returnable to stock and
which have to be disposed of,
it is necessary to estimate
their value realisable and take credit
for it in the estimate.

2. I am to request that
in the light of the above
remarks the estimates
returned herewith
may kindly be revised,
if necessary, and
retransmitted at an
early date.

OFFICE OF THE CHIEF ELECTRICAL ENGINEER,

Bangalore 3rd October 1923.
(MYSORE, INDIA.)

The Chief Secretary to Government
of His Highness the Maharaja of Mysore,
BANGALORE.

Sir,

Works to be undertaken in connection with the Viceregal Visit.

With reference to your letter No.G.5598/V.V.4-23 dated 3rd instant, I have the honour to attach herewith a detailed list of materials that will be returned to stock from Karapur with their corresponding values. You will notice that the list provides for return to stock of all the materials that can be used again with full value in most cases and a depreciated value in the case of wires and fittings which suffer a certain amount of wear and depreciation when used.

With regard to the 16 K.W. Engine generator set of item 1, it is intended not to take this back into stock, but charging the cost of the same to this estimate and use it for further similar occasions in future. The two existing Engine generator sets were installed under the same conditions in previous viceregal visits, and as the generator capacity was found entirely inadequate on the last occasion, viz., the Prince of Wales' visit, arrangements have been made this year to increase the generator capacity accordingly.

I request early sanction of Government to these estimates, as works have to be immediately put on hand to be completed in time for the Viceregal visit.

I have the honour to be,
Sir,
Your most obedient servant,

for Chief Electrical Engineer.
